COAL OIL AS KINDLING CLAIMS WOMAN'S LIFE

DOUGLAS, Ariz., Dec. 9.—(Special.) The use of kerosene oil for kindling purposes has claimed another victim in the vicinity of Douglas in Senora Angela Padilla de Sanchez, who was buried from the Catholic church this morning.

The sad accident which resulted in the death of Senora de Sanchez, occurred at Pirtleville on Monday evening and death resulted from the injuries yesterday morning at 10 o'clock. Being anxious to start a fire in the kitchen stove in a hurry Senora de Sanchez resorted to the common expedient of using kerosene in the kindling of the blaze. An explosion followed and she was quickly enveloped in flames. Screaming in agony, the unfortunate woman rushed from the house and well-meaning neighbors hurried to her assistance. Instead of smothering the flames in blankets or cloths, however, they threw water only on the burning woman which only caused the flames to spread and she was so frightfully burned that her death resulted the next morning.

The de Sanchez own their home in Pirtleville and are highly respected by their neighbors.

CLUB MEMBERS FEAST AT TURKEY DINNER

DOUGLAS, Ariz., Dec. 9.—(Special.) It was a jolly crowd of golf players that gathered around the festive board at the Country Club last night, the defeated French team and the victorious Holden team. It was a delightful dinner to which they did ample justice and steward Page fairly outdid himself in the preparation of the repast. He always does credit to the club in his cuisine, but the affair of last night must have had special attention from as it was pronounced a masterpiece. The main piece de resistance was turkey, and there were two birds, each of which, dressed, had weighed over twenty pounds. This emblem of thanksgiving was so well selected and so excellently cooked that it fairly melted in the mouth.

About the board at the banquet were S. W. French, J. A. Holden, Jack Adams, J. W. Cass, S. G. Dowell, R. L. Scott, Charles Scott, W. H. Reno, E. W. Graves, J. B. Speed, E. L. Ford, D. C. Hooper, P. C. McMullin, C. L. Smith, T. M. Smith, H. B. Rice, L. W. Downs, W. H. Kirkland, A. B. Packard, P. P. Butler, W. H. Webster, C. O. Thomas, A. G. Curry, William Savickie, S. R. Kone, C. A. Nichols, J. H. Calvert, William Foster and E. C. Robinson.

The main amusement feature was furnished by Don James Pedro Caruso Speed and his bevy of forty bouncing beauties.

Charles Scott is wearing the Class B button. He won it yesterday when the tie which had arisen on Sunday was played off. His medal score on the play off was a fine 89. Reno was ten strokes behind him and R. L. Scott had an odd day, turning in a card of 101.

Next Sunday there will be another match for a dinner, this time between the Copper Queen and the "World." The big dining company in all of its branches has a big golfing contingent and they are confident enough to think themselves "World" beaters, the world meaning to them the club members not identified directly with Copper Queen interests.

MOCTEZUMA MAN GOES TO NEW POSITION

DOUGLAS, Ariz., Dec. 9.—(Special.) W. Solomon, who has been chief clerk and accountant in the general office of the Moctezuma Copper company, returned to Douglas yesterday evening from Cananea where he went to meet R. K. Clancy, of the Santa Rosalia Mining company. Mr. Solomon will go with the Santa Rosalia company on January first, or sooner if he can secure release at Nacozari. It may be necessary for him to remain with the Moctezuma company until the first of the year.

Mr. Solomon has been in Nacozari for a number of years and has a large acquaintance in Douglas and throughout the Sonora country tributary to Douglas.

He goes to take charge of the accounting departments of the offices

and store of the Santa Rosalia company. He stated today before leaving for Nacozari that from what he has learned of the Santa Rosalia it gives promise of becoming an important producer in the near future. Speaking of Nacozari he said that he regarded it as one of the most up-to-date mining camps in the state of Sonora and that he regarded the mineral country around that camp as the richest to be found in Northern Mexico.
